PROFILE SUMMARY

Recent Computer Science graduate with a strong foundation in software development, relational databases, and data analytics. Experienced in building full-stack applications using Python, SQL, Django, React, and cloud technologies, with a focus on designing practical, user-focused solutions. Known for strong problem-solving skills and the ability to translate technical concepts into clear, actionable insights for users and stakeholders. Brings a collaborative mindset, attention to detail, and enthusiasm for supporting system implementations, data analysis, and client-focused technology solutions.

CORE COMPETENCIES

- Requirements Gathering
 - Business Process Analysis
 - System Configuration
 - Client Onboarding
 - Data Migration
 - User Acceptance Testing (UAT)
 - Stakeholder Communication
 - Team Leadership
 - Project Coordination
 - Technical Documentation
 - Integration Management
 - Risk Assessment
 - Issue Resolution
 - Quality Assurance
 - Workflow Optimization
 - Product Customization
 - Continuous Improvement
- **Software & Tools:** Python, JavaScript, C, SQL, Java, Django, Flask, React, PostgreSQL, Git, Docker, DigitalOcean, AWS

EDUCATION, CLUBS & HONORS

Bachelor of Science in Computer Science, 2026

James Madison University, Harrisonburg, VA

Minor in Mathematics and Data Analytics

GPA: 3.6 / 4.0

Dean's List: Awarded Fall 2022, Spring 2023, Fall 2024, Fall 2025

Upsilon Pi Epsilon - Member, Computer Science Honor Society

Cybersecurity Club, January 2024 – Present

President's Award, Spring 2025

Amazon Web Services (AWS) Certified Cloud Practitioner, September 2024

ACADEMIC & WORK EXPERIENCE

- ♦ **SQL Data Warehouse:** Designed and implemented an ETL pipeline using bronze/silver/gold medallion architecture to integrate ERP and CRM data for advanced sales analytics using SQL Server.
- ♦ **TASync:** Developed a full-stack scheduling application enabling teaching assistants to schedule, swap, and view shifts in real time using Django, React, and PostgreSQL.
- ♦ **MusicCPR.org:** Built a research platform that supports music educators in tracking and analyzing student achievement data using Django and React.
- ♦ **Flora & Fauna Database:** Created a web application to import, normalize, and query ecological datasets using Flask and SQL, improving data accessibility and analysis.
- ♦ **Spotify Dashboard:** Engineered a client-side web application for visualizing top artists and albums and managing interactive widgets using JavaScript and the Spotify API.

Member Services Assistant

JMU University Recreation (UREC)

August 2025 – Present

- ♦ Deliver exceptional front-line customer service by assisting members with facility access, guest passes, and equipment checkout in a fast-paced recreational environment.
- ♦ Maintain a safe, inclusive, and welcoming atmosphere by enforcing facility policies and responding promptly to participant needs and concerns.
- ♦ Administer locker contracts and manage reservations across multiple UREC facilities, ensuring accurate records and efficient use of resources.
- ♦ Support daily operations by handling member inquiries, resolving issues professionally, and contributing to smooth and organized facility management.
- ♦ Uphold high standards of professionalism, confidentiality, and teamwork while representing JMU UREC to students, staff, and visitors.

Support Crew Member

JMU madiSTEM Conference

March 2025

- ◆ Ensured a safe and supportive environment for all participants by monitoring activities and enforcing event safety protocols throughout the conference.
- ◆ Engaged with students to promote interest in STEM fields and careers through interactive, high-quality hands-on workshops in science, technology, engineering, and mathematics.
- ◆ Assisted facilitators and event staff with workshop setup, coordination, and participant guidance to ensure smooth program operations.
- ◆ Provided positive mentorship and encouragement to attendees, contributing to an inclusive and inspiring learning experience.

Recreation Aide / Temporary Recreation Supervisor

Hanover County Parks and Recreation

Summers 2022 – 2025

- ◆ Designed and implemented daily activity plans, including games, sports, and creative arts projects, in collaboration with a team of staff to promote engagement and positive youth development.
- ◆ Supervised and led groups of campers ages 5–13 on field trips to amusement parks, water parks, and local attractions, ensuring safety, accountability, and adherence to program policies.
- ◆ Assisted in overseeing daily camp operations by supporting staff, monitoring camper behavior, and maintaining a structured and inclusive environment.
- ◆ Built positive relationships with campers and families while serving as a role model for teamwork, responsibility, and leadership.
- ◆ Partnered with supervisors to address and resolve behavioral or operational issues professionally and effectively.
